Interprofessional Relations

Every workplace, no matter how cohesive, experiences conflict. Differing attitudes and opinions make innovation in healthcare possible. Understanding the facilitators and barriers to interprofessional collaborations allows teams to manage and work through conflicts when they arise.

- Opportunities for interprofessional input into nurse and physician hand-off communication. Serksnys D, Nanchal R, Fletcher KE.
- Health and social care professionals' attitudes to interprofessional working and interprofessional education: A literature review. O'Carroll V, McSwiggan L, Campbell M.
- An integrative review of facilitators and barriers influencing collaboration and teamwork between general practitioners and nurses working in general practice. McInnes S, Peters K, Bonney A, Halcomb E.
- Interprofessional collaboration to improve professional practice and healthcare outcomes. Reeves S, Pelone F, Harrison R, Goldman J, Zwarenstein M. – Click here to request full text
